

### Magnetic pole indicator, item number 80.0014

**Application** To determine the north / south poles and to display magnetic fields.  
**Dimension** Length 120 mm

### Magnetic field sensor foil, item number 80.0015

**Application** To visualize the poles or magnetization by placing the foil card on the magnet or on a magnet system.  
**Dimension** 95 x 65 mm  
Effective sensor size 64 x 58 mm (green) further sensor size on request.
